SPACEBOT user agreement

Before using the SPACEBOT program (hereinafter referred to as the "Program"), please read the terms of this Agreement and the appendices to this Agreement (*Appendix 1. Description of the SPACEBOT program; Appendix # 2. Terms of participation in the SPACEBOT referral program; Appendix # 3. SPACEBOT security policy; Appendix # 4. Features of functioning of cryptocurrencies (coins) when using the SPACEBOT program*), which are its integral parts (hereinafter referred to as the "Agreement"). Any use of the Program by You constitutes your full and unconditional acceptance of the terms of this Agreement. If You do not accept the terms of the Agreement in full, You may not use the program for any purpose.

This Agreement defines the procedure for using the SPACEBOT program via the mobile app and other available means (hereinafter referred to as the "Agreement») the agreement is between SPACEBOT LTD (the "Company", "we") and You (the "User"), hereinafter referred to collectively as the "Parties".

This Agreement is a public offer and is posted for review and acceptance of its terms when using the SPACEBOT program. The agreement may be changed by us without any special notice, and the new version of the Agreement shall enter into force from the moment it is posted at the address specified in this paragraph, unless otherwise provided by the new version of the Agreement.

SPACEBOT is not an investment project. SPACEBOT LTD, Users of the SPACEBOT program, including users-managers of SPACEBOT, do not engage in investment activities.

SPACEBOT is engaged in economic activities related to the development of software for blockchain technology, interaction with blockchain platforms, creation and operation of blockchain applications for mobile applications and blockchain wallets, and other activities in the field of information technology

SPACEBOT studies the cryptocurrency market, finds tools that allow you to mine and increase the amount of cryptocurrency, and offers Users a user-friendly application interface that allows you to generate cryptocurrency.

The SPACEBOT program is a tool that allows you to generate a cryptocurrency in accordance with the algorithms laid down by the developers of the corresponding cryptocurrency.

For a detailed description of the operation of the SPACEBOT program, see Appendix 1 to this agreement, "Description of the SPACEBOT program".

SPACEBOT LTD and users-managers of SPACEBOT do not call for the purchase of cryptocurrency. However, you can only use the SPACEBOT program if you are the owner of a cryptocurrency. You can buy cryptocurrency in any way you prefer.

The use of the SPACEBOT program does not guarantee the receipt of any income, regardless of the number of cryptocurrencies you purchased for the purpose of using the program and the number of new Users (referrals) that You invite to use the SPACEBOT program.

Все пользователи программы SPACEBOT могут получать вознаграждение за использование программы только в криптовалюте.

The use of the SPACEBOT program is associated with ensuring that Users can participate in PoS mining of cryptocurrencies. At the time of publication on our website of the current version of this document, Users can participate through the use of the program in PoS mining of the following cryptocurrencies: Prizm, BIP, BTT. The list of available cryptocurrencies can be changed by the Company unilaterally. Given the above, each user has the right to use for PoS mining any available cryptocurrency, giving the command of the Company to transfer belonging to him the cryptocurrency in the specified size on the electronic wallet of the cryptocurrency-of-view, such as BIP.

The company draws users ' attention to the procedure (rules) for using coins regulated by third parties that support the functioning of coins in the appropriate technological environment (in the blockchain of each coin), which is not controlled by the Company.

In accordance with publicly available information posted on the Internet, the procedure for using coins is established, but is not limited to the following documents:

- for PRIZM coins, General information is provided on the website <https://pzm.space/><https://pzm.space/>, as well as in the Original concept of a digital currency <https://pzm.space/prizm-whitepaper/><https://pzm.space/prizm-whitepaper/>;
- for Minter coins, General information is provided on the website <https://about.minter.network/ru/><https://about.minter.network/ru/>, as well as the concept of the digital currency Minter [https://about.minter.network/Minter_White_Paper_Russian.pdf?v04](https://about.minter.network/Minter_White_Paper_Russian.pdf?v04;);
- for BTT coins, General information is provided on the website <https://token.bit.team/>

The company is not responsible for the functioning of systems that support the operation of these coins available in the Program and recommends that Users read the documentation posted on the sites of coins supported by the Program.

To ensure compliance with AML requirements (prevention of money laundering and countering the financing of terrorism) The company uses a System that is a set of programs and computer databases, the copyright holder of which is SUM AND SUBSTANCE LTD-a company registered in England with company number 09688671, at the address: 30 St. Mary Axe, London, England, EC3A 8BF.

For more information about the procedure for conducting KYC / AML procedures, the User can read the **Security Policy (Annex 3 to this Agreement)**.

The company draws the User's attention to the fact that in order to purchase cryptocurrency and use the Program, the User has the right to use the exchange platforms (exchangers) available at the time of purchase at their own discretion and internal belief. The company does not advise or recommend using the services of any particular platform for buying/exchanging cryptocurrency. All information about exchange platforms published on the site is for informational purposes only.

The decision to transfer cryptocurrency to the pool is made by the User independently, through the company's team to perform the appropriate action based on the internal beliefs of each User and taking into account their subjective assessment of the current economic situation.

Taking into account that obtaining an increased cryptocurrency mining coefficient is provided by the formation of cryptocurrency pools, SPACEBOT notifies Users that The users ' cryptocurrency is combined into pools and stored on wallets owned by SPACEBOT.

The transfer of cryptocurrency from one wallet owned by the company to other wallets in order to ensure the User's rights to receive an increased coefficient of coin production is carried out by

SPACEBOT independently. By using the program, the User gives their consent to SPACEBOT To conduct these transactions.

SPACEBOT also notifies the User that the reward for mining cryptocurrency is transferred to wallets owned by SPACEBOT and further, according to the terms published on the site, is distributed among Users by crediting coins to the User's e-wallet.

The user undertakes to read the documentation posted on the websites of third parties that ensure the User's purchase of cryptocurrency, including information about commissions and fees charged by third parties.

To use the SPACEBOT program, You must meet certain requirements set forth in this document. For example, You must be of legal age and not use the program if you are residents of jurisdictions where the program does not work, is prohibited, and so on. In addition, there are certain actions that are prohibited when using the SPACEBOT program, such as engaging in illegal activities, providing false information, or other actions that may damage our services or systems.

For more information, see the terms of this document.

The activities of users of the SPACEBOT program may not violate this agreement, as well as local laws of the User's country of residence, international laws and regulations.

All data provided in the SPACEBOT program is not necessarily real-time and may not be accurate. All prices (values) including data, quotes, charts, including an indication of the amount of remuneration for mined coins (increase in the productivity of cryptocurrency mining), interest, etc. are forecasted and indicative in nature and can be changed by the Company at its discretion unilaterally.

Transactions with digital assets (cryptocurrencies) due to the uncertainty of the legal regime of digital assets in many jurisdictions can be risky. Please do not use the Program if you do not consider these risks. Make transactions with cryptocurrencies only with the funds that You can afford to lose.

By starting to use the SPACEBOT program, downloading the SPACEBOT mobile app, and / or completing the registration procedure, the User is considered to have accepted the terms of the Agreement in full, without any reservations or exceptions. If the User does not agree with any of the provisions of the Agreement, the User may not use the SPACEBOT program. If the Company has made any changes to the Agreement with which the User does not agree, he must stop using the program.

If you do not agree with any of the terms and conditions, as well as if this document contradicts the legislation of the country of your location, You agree not to use the SPACEBOT program, otherwise You will bear all losses and expenses caused by non-compliance with the above documents both to us and to third parties.

The company recommends that Users regularly check the terms of this document for changes and / or additions. Continuing to use the SPACEBOT program after making changes and/or additions to this document means that the User accepts and agrees to such changes and / or additions.

This Agreement governs the use of the SPACEBOT program, superseding all previous written or oral agreements on the subject matter of this Agreement.

The company and Users, including users-managers, are independent Contracting parties and this Agreement does not establish or is not intended to establish any Agency, partnership, joint venture relationship, relationship between employer and employee or franchisor and franchisee.

Nothing in the Agreement can be understood as establishing an Agency relationship, partnership relationship, joint venture relationship, personal employment relationship, or any other relationship between the User and the Company that is not expressly provided for in the Agreement.

INSTALLING THE MOBILE APPLICATION / DOWNLOADING THE PROGRAM SPACEBOT / OR / AFTER THE REGISTRATION PROCESS AND CLICKING THE "I AGREE" (I AGREE), YOU AGREE THAT THE PRESENT AGREEMENT ON THE CONDITIONS OF USE OF THE PROGRAM SPACEBOT, AS WELL AS THE DOCUMENTS INCORPORATED INTO THIS AGREEMENT BY REFERENCE (COLLECTIVELY, THE "TERMS OF USE"), WILL IS LEGALLY BINDING FOR YOU.

IF YOU WANT TO USE THE SPACEBOT PROGRAM, YOU MUST READ THE PRIVACY POLICY AND CONSENT TO THE PROCESSING OF PERSONAL DATA.

You can always contact us via customer support if You have any questions.

TERMS AND DEFINITIONS

The terms set forth in this section of the Agreement have the following meaning only for this Agreement and may not be interpreted otherwise in relation to the terms set forth in this Agreement.

SPACEBOT – software (computer program) with an algorithm for shared participation in masternodes, in the form of a website, an application, as well as add-ons to applications (messengers) for joint cryptocurrency mining (mining activity, mining), which contains a mathematical algorithm that allows users to receive remuneration in the form of cryptocurrency for mining coins (increasing the productivity of cryptocurrency mining). The SPACEBOT program provides an opportunity to extract an increased amount of mining due to a total greater balance in the blockchain network using the "Proof-of-Stake" system, where the node power depends on the value of the "stake" (mining pool). The SPACEBOT program can also be considered as a cryptocurrency wallet with a cryptocurrency staking function.

Mining activity is an activity aimed at generating (mining) cryptocurrency in order to maintain the existence of a certain type of cryptocurrency blockchain.

Staking is the process of storing cryptocurrency in a cryptocurrency wallet aimed at maintaining all operations in the blockchain of a certain type of cryptocurrency, consisting of blocking a certain amount of cryptocurrency in order to receive the greatest reward through the Proof-of-stake (PoS) system.

Proof-of-stake (PoS) (from the English *proof of stake*, literally: "confirmation of the stake») — a method of protection in cryptocurrencies, in which the probability of a participant forming another block in the blockchain is proportional to the share that the payment units of this cryptocurrency belonging to this participant make up of their total number. Stake is used as a resource that determines which node gets the right to mine the next block.

Node (node) - a member of the cryptocurrency network, a node in the blockchain network that interacts with other devices in the network that run a program (cryptocurrency wallet) that supports a certain type of cryptocurrency.

Мастернода - это узел в сети блокчейн, обеспечивающий функции добычи блоков, записи транзакций в сети блокчейн и получении вознаграждения (комиссии).

Shared participation in masternodes is a software algorithm (a program element) that allows multiple users to participate in staking by means of their combined participation in a single masternode and receiving a reward, which is then divided proportionally among all participants in the pool, depending on the number of coins.

Staking nodes - a certain number of coins, which involve holding coins on a cryptocurrency wallet defined by the Program (in a node-node), creating a block and receiving a reward for this. At the same time, the factors that affect the fact of creating a block and, accordingly, receiving remuneration are: the duration of the bet, the number of coins and their ratio to those available in the network.

The SPACEBOT staking pool is a way to participate in staking, which involves combining Users ' coins in order to get an increased reward for checking a block in the blockchain network.

The operator of the betting pool is SPACEBOT LTD.

A SPACEBOT account, personal account, or electronic (cryptocurrency) wallet is a tool for interacting with the blockchain network, meaning a user account accessible through the SPACEBOT program. This is a personal page of a registered User having a unique number, which has the only registered User with username and password from this page, which is a software interface which is available and accessible through mobile applications SPACEBOT or other available means.

A cryptocurrency transaction is a transfer of cryptocurrency from one address to another in the blockchain system.

"Digital assets "are the digital representation of value, which means" cryptocurrency"," virtual currency"," digital currency " for example, bitcoin, ether, or prism which is based on a cryptographic Protocol of a computer network, can be centralized or decentralized, with closed or open source code and used as a means of exchange and / or storage of value.

The SPACEBOT mobile app (hereinafter referred to as the " App») it is software available to the User through the app Store in full compliance with the Agreement, which is an informational application developed for mobile devices running the Android and Apple iOS operating systems. The intellectual property rights to the App and its elements belong to the Company.

Materials derived from the Program — any program, work, or information developed by the User or a third party Using the Program or any part of it.

Use of the Program — any actions related to the operation of the Program in accordance with its purpose.

Client assistance system — software installed in a Mobile application that includes a Customer support service.

Confidential information — the content of the Program (source code), all copies of the Program and all derivative works related to the Program, including, but not limited to, all updates, modifications.

1. AGREEMENT SUBJECT

In accordance with the terms of this Agreement, the Company grants the User the right to use the SPACEBOT program through the use of the SPACEBOT mobile app, as well as in any other available way under the terms set forth in this agreement.

1.1. By installing the program on your mobile device and using the program in any other way available, the User expresses their full and unconditional consent to all the terms of the Agreement.

1.2. Use of the Program on terms and in ways not provided for in this agreement is possible only on the basis of a separate agreement with the Company. The terms of this Agreement may be changed by the Company without any special notice. the new version takes effect from the moment it is published via the mobile app or in any other available way.

1.3. The User's use of the program implies their consent to the use of technical information about the user's device, system and application software and peripherals. The company may collect and use technical data and related information to improve the Program or to provide services or technologies to the User.

2. METHODS AND PROCEDURE FOR USING THE PROGRAM

2.1. The copyright holder grants the User the right to use the Program in the following way:

- Use the Program for its intended purpose, in order to copy and install it on the User's mobile device (s). The user has the right to install the Program on an unlimited number of mobile devices owned by the User.

- The program must be used under the name SPACEBOT. The user does not have the right to change and/or delete the name of the Program, the copyright mark, or any other indication of the Rightholder.

2.2. Special conditions for using the program are set in the following sections of the SPACEBOT App:

- Wallets';

- Instructions;

- Paramatrix;

- Affiliate program;

- Customization;

- TicketBooM.

- and other sections available on the SPACEBOT website / mobile app.

By using the program, the User agrees to the special conditions specified in the sections named in this paragraph. The terms and conditions may be changed by the Company unilaterally without prior notice to the User.

2.3. To use the program, you must create **an account**. To get an Account, the User must register. The account is the User's personal page and account and can only be used by the User to whom this Account was granted. Each Account is assigned an individual number. Users can only use their own names and personal information when registering an account. It is forbidden to register an account in the name of third parties. The company may, at its sole discretion, limit the number of User accounts that the company may register

2.4. When creating an account, the User agrees:

- provide accurate and truthful information;

- maintain and promptly update your account information;

- maintain the security of your account by protecting your password and restricting unauthorized third-party access to your account;

- immediately notify the Company if any security violations related to the account are detected;

- take responsibility for all activities that occur on the account and accept all risks of any authorized or unauthorized access to the account to the maximum extent permitted by law.

2.5. The user is fully responsible for keeping their authorization data confidential. Any actions with the User performed using correct authorization data are considered to be performed by the User, with the exception of cases established by current legislation.

2.6. The user undertakes not to provide information about access to their Account or the Account itself to third parties or other Users.

2.7. In case of theft or use of information about access to the Account or the Account itself by third parties, the User bears the burden of proving that this was not his fault.

2.8. The user is responsible for the actions of third parties who have gained access to his Account.

2.9. Any actions performed from the User's Account are considered to be performed by the User to whom this Account was granted. The user confirms that any activity that is carried out under his account (including, without limitation, posting any information about the company and products, clicking the consent confirmation buttons for any Additional Agreements or rules, subscribing or paying for any services, sending emails, etc.) will be considered as authorized by the User.

2.10. The user understands and understands that transferring the account to other parties or allowing the use of their personal account to third parties may cause harm to us and/or other Users. In such cases, the User agrees to reimburse us and our affiliates, management, employees, agents and our representatives for any losses and damages (including, but not limited to, lost revenue) incurred as a result of third parties using Your account. The user also confirms that if third parties use his personal account, or the User's fault violates the security of his personal account data, we are not responsible for any losses and damages incurred due to such violation and have the right to suspend or delete the User's account without his consent.

2.11. In case of loss of access to the Account, we provide the User with the ability to restore access to the Account, in particular, in the following ways:

- by entering the correct password recovery code previously created by the User for this Account when the Company provides such an opportunity;
- by entering the recovery code requested by the User from us, sent to the User in the form of an SMS message to the mobile phone number previously linked by the User to this Account;
- in any other way agreed by us with the User.

2.12. The company has the right to refuse to restore access to the User's Account if:

- The user provided data to restore access to the Account, different from the Company's data obtained when identifying the User;
- based on the results of consideration of the relevant request to restore access to the Account, the ownership of this Account will not be confirmed to the person who applied for the restoration of access;
- the information about the User's identity provided during the Identification procedure does not match the information previously provided during the identification procedure for the same Account.

2.13. We have the right to Block the User's Account:

- at the initiative of authorized state bodies, the Account is Blocked in cases and in accordance with the procedure established by law.
- at the User's initiative, the Account is Blocked at any time based on a notification received from the User.
- at The company's initiative, the Account may be Blocked if we suspect that the User violated the order of account use, including:
 - if it is necessary for us to ensure the safety of the account data, access to which is carried out using an account that the Company has suspicions of unauthorized access;
 - if there are non-standard or unusually complex schemes of operations that differ from the usual order of operations that are typical For users of the program;
 - if we meet the requirements established by the legislation on countering the legalization (laundering) of proceeds from crime and the financing of terrorism;
 - if we require the User to pass Identification on any of the grounds provided for in this Agreement;
 - if there are operations that occurred as a result of unauthorized access to the Account.
 - if the identified User, whose Account is blocked on any basis provided for in this Agreement, has other accounts, the Company has the right to block these accounts
 - in other cases stipulated by these terms and Conditions;

Блокирование Аккаунта влечет прекращение всех оказываемых услуг.

2.14. **The user has the right to request the deletion of their Account and personal data** by sending a corresponding request to the site Administration at the email address of the User support Service. The request must contain the following information: First Name, last Name, username, and email address. The site administration is obliged to destroy personal data and delete the account within a period not exceeding thirty days from the date of receipt of the specified request from the User. The user's account and data are permanently deleted.

- 2.15.** When using the Account, the user must comply with current legislation, the rights and legitimate interests of us and third parties.
- 2.16.** The user must only use the Account in person. The user does not have the right to disclose or otherwise transfer their Authorization data to third parties;
- 2.17.** The user is obliged to provide storage of Authorization data in a way that eliminates the possibility of obtaining access to third parties, in particular, do not record the Authorization data so that you can determine what these credentials are not save in electronic form, including special programs for storing passwords. The user must independently take all necessary measures to preserve confidentiality, prevent unauthorized use and protect their Account from unauthorized access by third parties.
- 2.18.** Before entering the password, the user must make sure that they are not being monitored, including using technical means;
- 2.19.** The user must make sure before entering the password
- 2.20.** The user must ensure the antivirus security of the device used to access the Account;
- 2.21.** The user does not have the right to use the Account to perform illegal actions (which have elements of a crime, administrative offense, non-fulfillment of civil obligations to any third parties, legalization (laundering) of proceeds from crime, or financing of terrorism, determined at our sole discretion), including:
- Do not use the Account for systematic accumulation and further distribution of funds among several recipients/systematic transfer to their own Bank details/receipt of cash/other operations that have signs of transit;
 - Do not use the Account to provide or collect funds or material assets for financing / supplying an organized group, illegal armed formation, or criminal community (criminal organization);
 - Do not use the Account to perform payment operations/receive payment in relation to objects that are withdrawn from circulation or restricted in circulation;
 - Do not use the Account for the purpose of stealing / hiding other people's money and material values;
 - Do not use the Account to perform any operations related to the distribution of information, goods, works, services that propagate hatred, violence, racial or religious intolerance, Nazi or similar attributes and / or symbols that encourage the overthrow of authorities and change the state system, to the illegal destruction of property, rebellion, mass riots, or other extremist activities;
 - Do not use the Account to perform any operations directly or indirectly related to the financing of terrorism;
 - Not use the Account for the purpose of performing any operations that violate or infringe any intellectual property rights;
- 2.22.** The user does not have the right to use the Account to Finance occult-religious, occult-philosophical, mystical or other similar associations that promote the spread of destructive cults, manifestations of religious, ethnic, or confessional extremism;
- 2.23.** The user does not have the right to use the Account to collect funds for the purpose of financing the political activities of individuals, legal entities, including non-profit and public organizations;
- 2.24.** The user does not have the right to use the Account to perform any operations related to the activity of raising funds with the promise of paying income in amounts comparable to the amount of funds raised, as well as to organize such activities, including organizing/distributing information about participation in investment pyramids and schemes, matrix programs, other similar get-rich-quick schemes or network marketing programs, or other programs aimed at stealing someone else's property or acquiring the right to someone else's property by deception or abuse of trust;
- 2.25.** The user does not have the right to use programs or apply other measures that allow the User to hide from the Company the technical characteristics of connecting to the Internet to use the Account;
- 2.26.** The user does not have the right to perform actions that have the purpose or result of disrupting the normal functioning of the Company's hardware and software;
- 2.27.** The user does not have the right to make any changes to the account software and/or any part of It on their own or with the involvement of third parties, as well as to use any means of automated access to the Account, unless otherwise agreed with the Company;

2.28. The user may not use phone numbers, usernames, programs, devices, or other client identifiers associated directly or indirectly with Users who have previously violated the terms of this Agreement when managing the Account.

2.29. The user must specify valid data that belongs to him / her during registration and Simplified identification.

2.30. The presence of signs of violation of the order of Account use in the User's actions is determined at The company's discretion.

2.31. If the User attempts to use their access rights to the program to create obstacles to the smooth operation of the program, as well as in case of systematic violation of this Agreement (2 or more) The user can be denied access to the program either with the right to restore access, or without the right to restore access.

2.32. Запрещено использовать Аккаунт для передачи денежных средств третьим лицам, путем передачи самого Аккаунта или доступа к нему.

3. ПРАВА И ОБЯЗАННОСТИ СТОРОН

3.1. Компания имеет право:

3.1.1. Use the information received from the User to improve the Program, including informing the User about the made improvements and updates;

3.1.2. The company has the right to transfer the rights and obligations under this Agreement to third parties for the purpose of executing this Agreement without the User's additional consent.

3.1.3. The company has the right to retain in its favor a part of the remuneration for the extraction (generation) of cryptocurrency issued by developers of another program (cryptocurrency), for example, developers of the "PRIZM" program.

3.1.4. The company has the right to unilaterally terminate the operation of the Program, ensuring the return of the cryptocurrency transferred by the User to the mining pool.

3.2. The company undertakes to:

3.2.1. provide the User with access to the customer support System.

3.3. The user has the right to:

3.3.1. get access to the use of the App after complying with the requirements of the terms of use of the App;

3.3.2. use the Application exclusively for the purposes and in the manner provided for in the Agreement and not prohibited by law

3.3.3. demand the return of the listed digital assets no earlier than one day after their transfer to the SPACEBOT e-wallet.

3.4. The user undertakes to:

3.4.1. Use the Program only in the manner specified in this Agreement

3.4.2. not to transfer to third parties the rights granted to it by the Company under this Agreement.

3.4.3. Independently ensure the non-disclosure (secrecy) of the data stored in the account, including the password, and is responsible for their disclosure in any way, including for all risks and losses incurred in connection with this. Disclosure of account data is a material violation of this Agreement. The user is responsible for all actions performed under his account and using his username and password, as well as for all actions performed from his Mobile device on which the Application is used. The user undertakes to immediately notify the Company of all cases of security violations and unauthorized access to the account. If the User does not fulfill this obligation, the User is solely and fully responsible for the actions performed under his account. In order to perform verification, the account may be subject to technical blocking by the Company.

3.4.4. Do not mislead other Users or third parties.

3.4.4. do not distribute spam, chain messages (messages requiring their transmission to one or more users), pyramid schemes or calls to participate in them, as well as any other Intrusive information via the App;

3.4.5. When registering and creating an account, the User undertakes to provide the Company with data (details, number) of the e-wallet belonging to him, registered using third-party services that are not

controlled by the Company, in order to ensure the possibility of returning the cryptocurrency in the cases stipulated by the agreement.

3.5. The user is personally responsible for reviewing the applicable laws and regulations in their respective jurisdictions to confirm that the use of the program is in compliance with them.

3.6. Пользователям запрещено распространять о программе SPACEBOT информацию следующего характера (включающую следующие высказывания/суждения):

- "promise to third parties to receive high returns (profit, money, earnings) when using the SPACEBOT program»;
- "calls from third parties to invest in the SPACEBOT program, as well as guarantees of return on investment/investment»;
- "calls to Deposit money/funds»;
- "promise of guaranteed referral rewards»;
- as well as other information similar in content to the provisions specified in this paragraph.

3.6.1. For each violation of clause 3.6. The company has the right to withhold from the User a one-way fine of one thousand euros. The company has the right to withhold coins (cryptocurrency) in the appropriate amount from the personal wallet of the User registered in the SPACEBOT program, as well as block access to the account and restrict the use of the program.

3.7. The user of the SPACEBOT program confirms and guarantees that:

3.7.1. you have reached the age of majority (at least 18 years) and are legally capable individuals; you have the necessary legal capacity, as well as all the rights and powers necessary and sufficient to conclude and execute this document in accordance with its terms.

3.7.2. was not previously removed from the program's user list;

3.7.3. has the necessary rights, powers and permissions to enter into this agreement and do not violate (will not violate) any other agreement to which you are a party;

3.7.4. will not use the program if any applicable law prohibits its use.

- do not have beneficiaries or beneficial owners and acts only in their own personal interests.

3.8. "BIT. TEAM" and the corresponding icons and logos are registered trademarks. Unauthorized copying, modification, use or publication of these marks is strictly prohibited. Users may not use the BIT.TEAM trademarks without explicit permission and without obtaining the written consent of BIT TEAM GROUP LTD.

3.9. This agreement establishes a fine (monetary penalty) in the amount of 3,000 (three thousand) euros for each fact of misuse of the BIT.TEAM trademark.

Illegal use is any use of the phrase "BIT. TEAM" and the corresponding icons and logos of BIT TEAM GROUP LTD.

The company reserves the right to withhold from the personal account of a User registered in the SPACEBOT program the amount of the penalty for each fact of misuse of the BIT.TEAM trademark based on a notification sent to the User's email address and containing evidence of misuse (photo/video recording of the violation and other evidence). The parties recognize the admissibility and sufficiency of such evidence.

3.10. Users are responsible for the terms of payment of insurance, fees, taxes and other mandatory payments that are payable as a result of using the SPACEBOT Program, including users are responsible for paying taxes on transactions with digital assets (cryptocurrencies) in accordance with their personal law and taking into account the status of a resident of the relevant state.

4. RESTRICTIONS

4.1. Except for the use in the amounts and ways expressly provided for in this Agreement, the User may not modify, decompile, disassemble, decrypt or perform other actions with the object code of the Program for the purpose of obtaining information about the implementation of algorithms used in the Program, create derivative works using the Program, or perform (authorize) other use of the Program, without the written consent of the Company.

4.2. The user does not have the right to reproduce and distribute the Program for commercial purposes (for a fee), including as part of collections of software products, without the written consent of the Company.

4.3. The user has no right to distribute the Program in a form other than the one in which he received it, without the written consent of the Company.

5. CONFIDENTIALITY AND PERSONAL DATA

5.1. The user undertakes not to disclose Confidential information, protect and prevent unauthorized disclosure of Confidential information, and take appropriate measures to protect Confidential information.

5.2. The parties guarantee the confidentiality of all information (oral or written) related to the other party's business, except for information that is already available to the public.

5.3. If Confidential information becomes available to third parties through the User's fault without the company's written consent, the User undertakes to compensate all losses incurred by the Company as a result of this.

5.4. The company guarantees that personal data and other private information provided by the User pursuant to section 1 of this Agreement will be used by the Company solely for the purpose of executing this Agreement. By entering into this Agreement, the User grants the Company the right to process and instruct the collection and processing of personal data to a third party with whom the Company enters into an agreement on the processing of personal data (including, but not exclusively: collection, systematization, accumulation, storage, clarification, updating, modification, use, internal transfer) of their personal data and other private information in any way that does not contradict the current Russian legislation (including without the use of automation tools) in order to fulfill their contractual obligations.

6. GUARANTEES

6.1. The program is provided "as is" with all possible faults and in the form in which it exists at the time of acceptance of this Agreement. The company does not provide any guarantees regarding the error-free and uninterrupted operation of the Program or its individual components, compliance of the Program with the specific goals of the User, and does not provide any other guarantees not expressly specified in this Agreement

6.2. To the maximum extent permitted by applicable law, the Company, as well as its partners, shall not be liable for any direct or indirect consequences of any use or inability to use the Program and/or damage caused to the User and/or third parties as a result of any use or non-use of the Program or its individual components, including possible errors or failures in their operation.

6.3. The company does not under any circumstances provide any guarantees regarding the error-free and uninterrupted operation of the Program, nor does it guarantee that the Program will adequately meet the needs of the User and disclaims any other warranties to the extent permitted by applicable law.

6.4. All claims related to the use/inability to use the Program, as well as possible violations of legislation and/or the rights of third parties as a result of using the Program, should be sent to us at the User support service address.

7. RESPONSIBILITY

7.1. All risks arising from Using the Program or working with it are borne by the User, including the risk of not receiving the expected profit from Using the Program, the risk of software failure after installing the Program, and so on.

7.2. The company does not guarantee that the Application and its individual elements are error-free and will function in accordance with the User's expectations.

7.3. In no event shall the Company be liable to the User for any loss (including, but not limited to, lost profits, loss of confidential or other information, loss of business interruption, loss of profit, goodwill or data, lost business opportunities, loss of turnover, special, incidental, indirect, consequential or punitive damages) arising out of The use of the Program or the inability to Use the Program.

7.4. The company is not responsible for any errors, omissions, interruptions, deletion, defects, delays in processing or transmitting data, communication line failures, theft, destruction or unauthorized access to user materials posted in the App or in any other place.

7.5. If the law of the User's country does not allow the limitation of liability or The company's liability is established by a relevant decision of a competent court, the Company will only be liable for actual damages incurred by the User from Using the Program, if such damages are caused by the company's culpable actions, or if the damage occurred due to reasons that the Company knew or should have known. In this case, the maximum amount of liability of the Company is limited to one thousand euros.

8. TERM AND TERMINATION OF THE AGREEMENT

8.1. The agreement comes into force when all the conditions provided for in section 1 of this Agreement are fulfilled, i.e. from the moment of installation (download) The SPACEBOT program is valid until its termination. The agreement is terminated immediately when the User violates any of the terms of this Agreement without further notice from the Company, and the User undertakes to immediately remove the Program, all copies, modifications, upgrades and materials Derived from the Program.

8.2. This Agreement is valid throughout the world. The user has the right to terminate the use of the SPACEBOT Program at any time by terminating the Agreement and deleting the Program, all copies, modifications, upgrades, and materials Derived from the Program, and notifying THE Company accordingly. The agreement will be considered terminated from the moment the Company receives the User's notification.

8.3. In all cases, upon termination of the Agreement and termination of the Agreement, the User is not entitled to claim any compensation.

9. FORCE MAJEURE

9.1. Neither Party is liable for any breach of obligations resulting from unforeseen circumstances, such as fire, strikes, insurrection or riots, embargoes, disasters, delays in transportation, directives from civil or military authorities.

9.2. Each Party agrees to immediately notify the other party of force majeure. This message should contain detailed information about what caused them.

9.3. If the failure of one party to comply with the rules due to force majeure continues for more than 4 (four) weeks, then the other party has the right to terminate this Agreement by sending the other party an email notification of termination of this Agreement. Neither Party has any obligations to the other party in case of termination of the Agreement as a result of force majeure.

10. DISPUTE RESOLUTION PROCEDURE

10.1. The parties recognize the mandatory pre-trial dispute resolution procedure. The user agrees that any dispute arising in connection with the use of the program will be handled in accordance with this Agreement, and that the Company will have all rights and authority to resolve such dispute.

The user must notify the Company if there is a dispute.

Upon receipt of the dispute notification, which is sent to the support service.

The company has the right to request the User to submit supporting documents.

The User hereby agrees that the Company will have the right, at its sole discretion, to reject or accept any supporting document.

The User also hereby acknowledges that the Company is not a judicial or arbitration institution and makes the decision solely as a non-professional person. The User hereby agrees not to hold the Company and its affiliates liable for any materials that are incorrect or misleading.

The notification review period is 30 calendar days.

The term for the Company to make a decision on the dispute is 60 calendar days.

We inform users that the use of the program is governed by the laws of England and Wales.

10.2. The user acknowledges that the Company may suffer damages if the terms of this Agreement are not observed, and therefore the User agrees that the Company is entitled to use any form of protection of

its violated rights and legitimate interests, including such form as a direct appeal to the appropriate court without compliance with the claim procedure.

10.3. All disputes arising out of or related to the substance of this Agreement, its interpretation, performance, termination, termination and claims of invalidity shall in all cases be considered in accordance with the substantive law of England and Wales.

11. FINAL PROVISIONS

11.1. This Agreement is made in accordance with the current legislation of England and Wales. The law applicable to the interpretation of this Agreement, as well as all relations arising from the substance of this Agreement, is the substantive law of England and Wales.

11.2. If any provision of this Agreement for any reason becomes invalid or becomes unenforceable or is declared invalid by a competent court, it shall be considered as not included in the text of this Agreement, which, however, in no way affects the legality and enforceability of the other terms.

11.3. The section headings for the text of the Agreement are provided for convenience only and do not have independent legal force and cannot be interpreted in relation to the terms of the Agreement.

11.4. The user confirms that before using the SPACEBOT program, they have read this Agreement, understand it fully, and agree to comply with its terms.

11.5. The parties recognize the legal force of documents sent via electronic communication. Documents originating from the Company will be considered completed in proper written form if they are sent from the email addresses specified in the SPACEBOT app. Correspondence will be considered sent to the appropriate address if it is sent to the company's email addresses specified in the SPACEBOT app.

Appendix 1. Description of the SPACEBOT program

Appendix 2. Terms of participation in the SPACEBOT referral program.

Appendix 3. SPACEBOT security policy.

Appendix 4. Features of functioning of cryptocurrencies (coins) when using the SPACEBOT program.

Appendix 1.

Description of the SPACEBOT program.

1.1. General principles of the SPACEBOT program.

The SPACEBOT program is a cryptocurrency wallet with the function of cryptocurrency staking (software or mathematical software with an algorithm for shared participation in masternodes (i.e., providing functions for recording data about user accounts, performing calculations in the blockchain, etc.)

Staking is the process of storing cryptocurrency on a cryptocurrency wallet to provide support for all operations in the blockchain network and consists of blocking a certain amount of cryptocurrency in order to receive a reward.

In order to ensure participation in betting, the Company creates a main wallet for the corresponding coin and ensures synchronization with the blockchain of the corresponding type of cryptocurrency on its device. Due to centralization, the transaction speed is increased. Consensus algorithms include Delegated Proof of Stake. The number of nodes is determined by the Company, since networks using such algorithms must determine a fixed number of nodes.

Stakeholders (holders of cryptocurrency) provide their coins in the form of a share (steak), periodically receiving remuneration at the expense of holding funds.

In order to receive remuneration by the blockchain network of the corresponding type of cryptocurrency, the User agrees to the Company to transfer their coins to the pool for betting by transferring the cryptocurrency to wallets directly participating in the betting.

The amount and mechanism of remuneration distribution depends on the specific type of cryptocurrency. The user can get acquainted with the specified information on the official websites of the corresponding type of cryptocurrency:

- for PRIZM coins, General information is provided on the website <https://pzm.space/><https://pzm.space/>, as well as in the Original concept of a digital currency <https://pzm.space/prizm-whitepaper/><https://pzm.space/prizm-whitepaper/>;

- for Minter coins, General information is provided on the website <https://about.minter.network/ru/>, as well as the concept of the digital currency Minter [https://about.minter.network/Minter_White_Paper_Russian.pdf?v04](https://about.minter.network/Minter_White_Paper_Russian.pdf?v04;);

- for BTT coins, General information is provided on the website <https://token.bit.team/> .

The user agrees to the Company to keep their coins in the wallets participating in the betting.

Information about the procedure for accrual of remuneration is available to all network users who decide to participate and be the owner of a share. the remuneration distribution schedule is predictable and verifiable.

SPACEBOT's staking pool requires configuration, development, and maintenance, for which the Company charges a percentage of the fee

The SPACEBOT betting pool is formed by eating Users ' coins in order to increase the probability of being selected as a validator and receiving a reward for checking the block. Users combine their shares of coins and divide the block reward in proportion to the number of their coins.

THE spacebot betting pool is managed by the pool operator, SPACEBOT. Interested parties-Users give their consent to the Company to block their coins at a certain address in the blockchain network (on a certain wallet) the corresponding type of cryptocurrency.

The SPACEBOT staking pool provides predictable and systematic remuneration for staking cryptocurrencies, technically implements and maintains the settings and launch of the verification node (node - masternode validator).

A cryptocurrency wallet is a tool for interacting with the blockchain network and is:

- software, i.e. based on SPACEBOT software;

- hot, i.e. connected to the Internet and provides quick access to the User's balance;

- mobile, i.e. developed as a smartphone app and provides sending and receiving cryptocurrency using QR codes.

The SPACEBOT cryptocurrency wallet, like any other, is not intended for actual storage of cryptocurrency and is a tool for interaction with the blockchain network of the corresponding type of cryptocurrency (for example, Minter, etc.). the Cryptocurrency is stored in the blockchain and never leaves this technological environment.

A cryptocurrency transaction is a transfer of cryptocurrency from one address to another in the blockchain system (records of balance changes).

The wallet generates the necessary data for sending and receiving cryptocurrency via transactions. The specified data consists of public and private keys.

Public key-an identifier in the form of a set of letters and numbers that is generated based on the public and private keys and provides the ability to send coins between Users (information about the address of sending cryptocurrency in the blockchain network of the corresponding type of cryptocurrency, for example, Minter).

A private key is an identifier that provides access to cryptocurrency in the blockchain network and the ability to implement transactions with cryptocurrency in the blockchain network.

The system generates for the User (creates a new wallet-the user's identifier) and sets a personal password to access it.

When creating a wallet, the User grants the Company the right to manage the private key.

Cryptocurrency wallets generated by the SPACEBOT program are the property of THE Company.

Cryptocurrency wallets of the Company that are directly involved in the staking of the corresponding type of cryptocurrency and the algorithms for building these wallets are a technical part of the SPACEBOT Program, information about which is a commercial secret.

1.2. Technical description of the User account. Features of the SPACEBOT algorithm.

As indicated, the SPACEBOT User account is The user's cryptocurrency wallet that provides the ability to use the SPACEBOT Program.

The SPACEBOT user's account (wallet) is generated to identify the user.

In order to minimize the risk of double spending of cryptocurrency in the blockchain network, SPACEBOT Does not issue private keys from cryptocurrency wallets to the User.

The company also draws the user's attention to the Fact that the generation of cryptocurrency wallets on third-party platforms (exchanges, exchangers, for example, such as, but not limited to, WALLBTC, etc.) does not mean that the generated wallet participates in the blockchain system of a certain type of cryptocurrency (i.e., does not mean participation in referral programs of a certain type of cryptocurrency, for example, PRISMS).

These wallets are transit wallets, are not intended for storing cryptocurrency, and only have the function of crediting cryptocurrency and identifying the user. In this regard, there is no need to activate (i.e., send and store coins) these wallets in order to participate in the staking of a particular type of cryptocurrency. The SPSCEBOT program also assumes an element (script) - **shared participation in masternodes**-a program algorithm (program element) that allows multiple users to participate in staking by means of their combined participation in a single masternode and receiving a reward, which is then proportionally divided among all participants in the pool, depending on the number of coins.

The program algorithm reserves a certain number of coins that are working masternodes, regardless of the number of users, it always works. When users top up the balance Program, the number of masternodes increases as the amount of coins accumulates. If Users collect coins and there are not enough of them to provide the masternode, it is automatically disbanded and the cryptocurrency is credited to the users ' wallets.

The SPACEBOT program, which provides shared masternode services, charges a service fee, since they need cloud server services to work. The Commission rate may change depending on the exchange rate of cryptocurrencies supported in the bot

1.3. Description of procedures for ensuring the security of the account.

The equipment that supports the SPACEBOT program is located in a separate room without access by third parties.

The company uses a dedicated channel, as well as physical equipment (routers and routers), the settings of which are accessible only to employees of the company.

Traffic is filtered both at the physical level (using the router) and at the software level.

The ddos protection and traffic distribution service is used to protect against spam and ddos attacks ddos-guard.net.

To protect the connection, an SSL Wildcard certificate is used, which provides SHA-256 encryption.

Changes to site files can only be accessed from authorized devices using a special VPN tunnel and a key that is only available to the Company.

Databases are protected by ISO / IEC 9075 (https://en.wikipedia.org/wiki/ISO/IEC_9075) <https://ddos-guard.net/en/info/schema-osi>

Google's two-factor authentication provides an additional layer of account security. During the registration and usage procedure, you will receive a confirmation email. Users of the program go through the verification procedure.

Appendix 2.

Terms of participation in the SPACEBOT referral (marketing) program.

The pool operator company does not participate in the marketing program and does not receive remuneration from attracting new participants – users of the SPACEBOT program. You can learn more about the rules of the marketing program in the SPACEBOT app.

The purpose of referral (marketing programs) is additional advertising of the program, promotion of training programs, courses, and various products created by SpaceBot).

SPACEBOT's revenue is generated solely by the Commission from cryptocurrency staking fees charged by THE Company for maintaining the pool and its maintenance.

SPACEBOT carries out legal economic activities in the field of information technology.

Users of the SPACEBOT program are informed about the company's goals. The principles of operation of the SPACEBOT program are transparently and fully disclosed in the terms of this Agreement. If You do not understand the operation of the program and its terms of use, please do not use this program.

1. General provisions

1.1. These terms and Conditions (the "Conditions") set out the rules of participation of the User in the referral (affiliate) program SPACEBOT (hereinafter – the Program).

1.2. The SPACEBOT referral program is a promotional campaign, which is a set of events aimed at stimulating consumer demand, ensuring effective sales, attracting attention, increasing awareness and loyalty, maintaining and increasing consumer interest in the company's trademarks, services, and the SPACEBOT program and its partners in order to further promote them on the market.

1.3. The organizer of the Referral Program Is SPACEBOT LTD.

1.3.1. The company informs Users that BIT TEAM GROUP LTD represents SPACEBOT on the territory of the Russian Federation on the basis of a marketing services Agreement concluded between BIT TEAM GROUP LTD and the Company.

1.4. The terms and conditions contain clauses with active hyperlinks to Internet pages with more detailed information, which are an integral part of the Terms and conditions. An integral part of the Terms is the information posted in the Manager's business profile (account), including the terms of promotions, offers, and rules.

1.5. Terms that are not defined in the Terms may be used in the Terms. In this case, the interpretation of such a term is carried out in the order determined by: first of all – the rules – the User agreement, then - the established (commonly used) on the Internet.

2. Participation in the referral program.

2.1. The opportunity to participate in the Program is available to legally capable individuals who have reached the age of at least 18 (eighteen) years and meet the following conditions (hereinafter-the Manager):

2.1.1. In the personal account, the User provided reliable information about themselves and accepted the Terms by clicking on the registration button (hereinafter - " Registration in the Program»);

2.1.2. The Manager complies with the conditions for receiving incentives specified in the business profile (account), including achieving indicators based on the results of completed tasks of the Manager and/or third parties attracted by him using the SPACEBOT Program.

2.3. The Program organizer has the right to refuse to participate in the Program or exclude the Manager from the Program unilaterally, including, but not limited to, in case of non-compliance with clauses 2.1.1.-

2.1.2. Conditions and / or abuse of rights. In the event of a violation of the Terms and/or abuse of the right, the Organizer has the right to suspend the Manager's participation in the Program, refuse to grant the Manager an incentive, debit the coins previously provided to the Manager as an incentive, and unilaterally recover damages from the Manager in full if the fact of violation of the Terms and/or abuse of the right is discovered.

2.4. The Manager is an independent entrepreneur. He is not an employee or legal representative of any of the companies operating under the BIT.TEAM brand.

2.5. The Manager is personally responsible for paying taxes and complying with the laws governing business or other economic activities in the country and region where they operate.

2.6. The company reserves the right to:

- define your marketing strategy and dictate your policy to your Managers;
- to make changes in the standards governing the activities of the Company and the Manager;
- terminate this Agreement unilaterally, as well as refuse to register the candidate in the Program.

2.7. By entering into an Agreement the Manager assumes the following obligations:

- maintain a reputation, share the company's ideology, policy and strategy;
- do not produce advertising materials, do not create websites-using trademarks, logos and other intellectual property owned by BIT.TEAM, without the consent of THE Company;
- do not use a network built using the product - SPACEBOT and BIT.TEAM.

3. How to participate in the Referral program.

3.1. After Registering in the Program, the Manager gets access to the business account, which contains the tools necessary to attract third parties to use the Program, track statistics on third parties attracted by it, and receive and use Incentives provided by the Program (hereinafter – the Business account).

3.2. To receive incentives, the Manager must motivate third parties (hereinafter "Referrals") to use the Program, creating a network of Referrals (the "Network"). Detailed conditions for participation in the referral program are set in the SPACEBOT app in the "Partner program" section.

3.3. For the purpose of identifying a Referral User as a Manager attracted to the Latter, the referral program's business profile provides the following options: unique alphanumeric codes (hereinafter referred to as "promo Codes"), unique Internet links (hereinafter referred to as "Referral links").

3.4. A referral is considered to be attracted by the Manager if the Referral activated the Manager's referral promo Code when using the SPACEBOT Program.

If the Referral was attracted by several Managers at the same time, the fact of using the SPACEBOT Program by this Referral is taken into account in the statistics of the Manager whose referral promo code was used last.

If the Referral has not previously used the SPACEBOT Program. if the user was attracted by several Managers at the same time, the fact of using the SPACEBOT Program is taken into account in the statistics of the Manager whose referral promo code was used first.

3.5. If the Manager meets the criteria for receiving incentives specified in the Business profile and in the "partner program" section, as well as other sections contained in the SPACEBOT app, including indicators for the number of invited Referrals, Networks, the Organizer has the right to credit the Manager's account with prism coins and/or other incentives specified in the Manager's business profile. The number of incentives that correspond to a specific criterion is indicated in the Manager's business profile. An integral part of these Terms and conditions are the promotion Rules that define the procedure for receiving incentives, the current version of which is available in the Manager's business account.

3.7. The organizer has the right to conclude a contract with the Manager for the provision of paid services and pay the Manager remuneration for referrals attracted by him within the framework of The Program. The decision to enter into an agreement is made on an individual basis based on the indicators of the Manager's Network. A contract can be concluded with a person who is an individual entrepreneur or a payer of professional income tax ("self-employed").

3.10. A referral who has become a Manager cannot be their Manager's Manager.

3.11. When performing actions under this Program, the Manager must act in good faith, comply with the requirements of current legislation, moral standards, as well as the rights of the Organizer and third parties. It is strictly forbidden to attract Referrals and perform the following actions within the Program:

- using Internet resources that contain pornographic information, promote violence, racial, sexual, religious and other forms of inequality, and contain information that is expressly prohibited by law. The Manager is solely responsible for compliance with advertising legislation, since it generates advertising materials without the participation of the Organizer and determines how to distribute them in order to attract Referrals. The Manager must, at the request of the Organizer, compensate for losses incurred in

connection with the violation of the Federal law "on advertising" when creating and/or distributing advertising and information materials.

- using methods that discredit the Organizer, its employees, or other persons, including the Organizer's competitors.

3.12. During the period of participation in the Program, the Organizer grants the Manager the right to make publicly available the text and graphic materials provided by the Organizer solely for the purpose of fulfilling its obligations under the Program (specifying the source of borrowing without fail), in order to increase the effectiveness of the Manager's participation in the Program. This right applies to the following Materials:

- descriptions of how the program works;
- Photo;
- reviews;
- reviews;
- news;
- graphic images and banners with the symbols of SPACEBOT and brands participating in these activities (hereinafter referred to as "Materials").

The Manager does not have the right to change or interpret the content of the Materials provided by the Company in any other way. For each violation of this provision, the Organizer has the right to impose a fine of one thousand euros on the Manager and unilaterally withhold coins in the appropriate amount from the Manager's personal account in the SPACEBOT app.

The Manager does not have the right to use the BIT TEAM trademark in the domain name, commercial designation, representing the SPACEBOT program on the basis of a marketing services agreement concluded between BIT TEAM and the Company.

3.12.2. It is not allowed for The Manager to use the BIT TEAM trademark and designations that are confusingly similar to IT in the names of groups and accounts in social networks.

3.12.3. the Manager is Not allowed to use the SPACEBOT trademark and designations that are confusingly similar to IT in the names of groups and accounts in social networks, if such use will negatively affect the business reputation of the Company and/or if it is not explicitly stated that the group (account) was created by a participant in the company's referral program.

3.12.4. All expenses related to the promotion of SPACEBOT, including the cost of presentations, training seminars, conferences, etc., are paid at the personal expense of the Manager and are not subject to compensation from the Company, except in cases stipulated by a separate agreement of the parties concluded in writing.

3.13. It is forbidden to attract Referrals in the following ways:

- through the use of apps to browsers;
- by sending spam in any technical way (i.e. sending electronic messages without first obtaining the consent of the subscriber or the recipient of such mailing);
- using contextual, teaser, targeted, and display ads;
- coupon sites;
- through Internet sites or Internet pages specially optimized for search queries for the word SPACEBOT and all its derivatives, solely for the purpose of redirecting visitors to another site or page;

3.15. When placing links to the use of the Program, the Manager must accompany the Materials with a sign of information products in the form of the number " 18 "and the sign" plus "and (or) a text warning in the form of the phrase"prohibited for children". Demonstration of these Materials and links is allowed only if the Manager has applied administrative and organizational measures, technical, software and hardware means to protect children from information that harms their health and (or) development, including receiving confirmation from the user to whom the information is addressed that they are over 18 years old.

3.16. Attracting Referrals, the Manager can only operate with real facts and provide reliable and complete information. The Manager does not have the right to mislead the Referral by exaggerating the possibility of receiving rewards or downplaying the efforts to achieve success.

- 3.17. The Manager is prohibited from using mass ads to attract Referrals, including: placing ads with job offers – both on the Internet and on paper; calling people looking for jobs through ads with job offers.
- 3.18. The Manager is prohibited from obtaining contacts by dishonest means, including: using databases of resumes and vacancies posted on various job search sites; conducting so-called social surveys in crowded places or over the phone.
- 3.17. Information about the Manager's Network built using the Organizer's tools is confidential information and is not subject to disclosure to third parties. The Manager undertakes to use the Network solely for the purpose of fulfilling obligations under the Program.
- 3.18. If a violation of the Agreement and these Terms is found, the Manager may be excluded from the Program. After detecting a violation, coins are not credited within the Program, and coins provided to the Manager earlier within the Program are subject to cancellation.
- 3.19. The organizer provides technical, informational, and training support to Managers in order to ensure effective participation of the Manager in the Program. Training materials and other information received from the Organizer in accordance with this paragraph is confidential and is not subject to disclosure to third parties. If it is established that the Manager has disclosed confidential information or used this information for purposes not related to participation in the Program, the Organizer has the right to recover damages from the Manager.
- 3.20. The Manager is responsible for paying taxes and other mandatory fees (payments).
- 3.21. If the Manager does not comply with the terms of this Agreement, the Company reserves the right to unilaterally impose Fines and deduct (debit) the following amount of coins from the Manager's personal account for each fact of detected violation, having previously notified the Manager of the fact of detected violation.
- 3.22. If the Manager does not comply with the terms of this Agreement, the Company reserves the right to unilaterally block accounts and terminate the agreement unilaterally.

4. Final provisions

- 4.1. Manager shall comply with the requirements of data protection legislation in respect of any personal data that become known through the performance of its obligations, and to ensure the security of such personal data during their processing.
- 4.2. The Manager undertakes not to disclose the data necessary for access to the Business account to third parties. If the Manager has any suspicions about the security of the specified data or the possibility of their unauthorized use by third parties, the Manager shall immediately notify the Organizer.
- 4.3. By registering for the Program, the Manager agrees to receive messages from the Company regarding the Program terms, Program news, and the ability to receive messages about SPACEBOT's marketing activities. These messages will be sent to the email address and / or phone number that the Manager specified when Registering In the program/in the SPACEBOT account
- 4.4. By registering in the Program, the Manager (individual, individual entrepreneur) gives the Organizer consent to the processing of their personal data, in accordance with the Organizer's Policy on personal data processing.
- 4.5. If you have any questions or complaints, the Manager should contact the customer Service. The Organizer's responses to the Manager's requests are considered to be sent in the appropriate form if they are sent to the Manager's email address specified during registration. The parties will try to resolve any disputes that arise through negotiations.
- 4.6. The Manager does not have the right to transfer their rights and/or obligations under the Program to third parties.
- 4.7. Participation in the Program does not mean that the Manager and the Organizer have entered into an employment, civil law, or any other agreement.
- 4.8. The organizer has the right to make changes to the Agreement and these Terms without any special notice, and the Manager is obliged to regularly monitor changes in the Terms. When the Manager takes actions aimed at receiving rewards under the Program after changing the Terms, it is a confirmation of the Manager's agreement with the new version of the Terms.

Appendix 3.¹
SPACEBOT security policy (Sanction Policy)

SPACEBOT LTD (hereinafter referred to as SPACEBOT) adopts appropriate, sufficient measures aimed to preventing its operations from being used as means to conceal, manage, invest or use any form of money – or other assets – due to illicit activities, or to give the appearance of legality to such activities. The company adopts a risk-based approach in the design and implementation of the AML/CTF Policy with a view to managing and mitigating ML/TF risks.

SPACEBOT’s 5 key AML/CTF principles:

- to comply with AML/CTF legislation in the countries in which it operates;
- to strive to fulfil international standards as detailed by the Financial Action Task Force (FATF) recommendations;
- to work in conjunction with the Government of UK and the governments of the countries SPACEBOT operates in, as well as support their objectives in relation to the prevention, detection and control of ML/TF;
- SPACEBOT may decide not to provide products or services based upon decisions guided by ML/TF risk appetite and corporate social responsibility;
- to comply with primary legislation of England and Wales

In order to ensure compliance with KYC / AML on the requirements on Prevention of Money Laundering and Countering the Financing of Terrorism the SPACEBOT use the System which is a set of programs and computer databases, the copyright holder of which is the Service Provider (SUM AND SUBSTANCE LTD incorporated and registered in England with company number 09688671, whose registered office is at 30 St. Mary Axe, London, England, EC3A 8BF.).

System consists of a set of modules that allow to analyze the images and information contained therein, to check the personal data against databases, and to receive reports with the results of such analysis (Check).

In relation to customers SPACEBOT verifying an individual’s identity information for lawful purposes of identity verification, fraud prevention or enforcement of laws designed to prevent money laundering but does not include determining a consumer’s eligibility for credit or insurance for personal, family or household purposes, employment or a government license or benefit.

In order to ensure security regarding the SPACEBOT 's customers, checks are carried out using the following services (the “Service(s)”), including making available analysis of the images and information contained therein, to check the personal data against databases, and to receive the Reports with the results of such analysis (“Check(s)”):

Service name	Description of Service
AML Screening: International Sanctions, PEPs, Watchlists and Adverse Media	A solution for checking whether the client is on any of the global sanctions lists, PEP lists, watchlists, blacklists or adverse media (OFAC, UN, HMT, EU, DFT etc.). Ongoing monitoring is included by default for one year once the check is completed. Ongoing monitoring means regular (daily) review of the data collected during the AML Screening.

¹ At the time of publication, the security Policy is only available in English. language. The user has the right to contact the Company’s support service with a request for clarification of the provisions of this policy.

Identity Document Verification	A solution for determining the authenticity and legitimacy of the document to ensure that it is has not been forged or altered.
Face Match and Liveness Check	A solution comparing faces on the submitted images and analyzing the movements of the person, confirming that the documents belong to a particular person and that person is real.
Proof of Address Check	Checks the address and residency by analysing the following types of documents: - Driving licenses bearing residential address - Tax bills - Utility bills - Voter rolls - Bank statements - Other documents commonly accepted as proof of address.
Additional Services	- Risk management dashboard for compliance officers; - Reporting module; - Analytics and Statistics; - External integrations with Slack, Telegram, Email, Twilio, etc.; - Tech and case-related support via messengers and email.

Appendix 4.

Features of functioning of cryptocurrencies (coins) when using the SPACEBOT program.

These Rules are open (to be confirmed) the procedure for accrual and use of cryptocurrencies available when using the SPACEBOT program.

Using the SPACEBOT program involves Users using third-party programs (blockchains) that generate cryptocurrencies (for example, Prizm, BIP, BTT, etc.). The list of available cryptocurrencies can be changed by the Company unilaterally.

Given the above, each user has the right to use for PoS mining any available cryptocurrency, giving the command of the Company to transfer belonging to him the cryptocurrency in the specified size on the electronic wallet of the cryptocurrency-of-view, such as BIP.

The company repeatedly draws users' attention to the procedure (rules) for using coins regulated by third parties that support the functioning of coins in the appropriate technological environment (in the blockchain of each coin), which is not controlled by the Company.

In accordance with publicly available information posted on the Internet, the procedure for using coins is established by the following documents:

- for PRIZM coins, General information is provided on the website <https://pzm.space/>, as well as in the Original concept of a digital currency <https://pzm.space/prizm-whitepaper/>;

- for Minter coins, General information is provided on the website <https://about.minter.network/ru/>, as well as the concept of the digital currency Minter [https://about.minter.network/Minter_White_Paper_Russian.pdf?v04](https://about.minter.network/Minter_White_Paper_Russian.pdf?v04;);

- for BTT coins, General information is provided on the website <https://token.bit.team/>.

The company is not responsible for the functioning of systems that support the operation of these coins available in the Program and recommends that Users read the documentation posted on the sites of coins supported by the Program.

For example, the "PRIZM" program is not owned or controlled by SPACEBOT, nor are other programs that generate other cryptocurrencies, such as Minter, etc.

To use the SPACEBOT program, the User must read and study the rules governing the generation and use of other cryptocurrencies, published in publicly available sources on the Internet.

For example, for informational purposes, SPACEBOT informs Users about the basic rules of operation of the "PRIZM" program. These rules are taken by the Company from publicly available sources on the Internet.

According to the Certificate No. 018662596 on registration of the computer program, published on public Internet sites

http://www1.fips.ru/fips_servl/fips_servlet?DB=EVM&DocNumber=2018662596&TypeFile=html
http://www1.fips.ru/wps/PA_FipsPub/res/Doc/PrEVM/RUNWPR/000/002/018/662/596/2018662596-00001/document.pdf the computer program "PRIZM" is designed for non-cash payments using information and communication technologies. The program implements the following functions: implementation of decentralized coin issuance through the "Paramining" technology; creation of user accounts using the "Brain Wallet" technology; transfer of coins between user accounts; storage of coins and accounting of coins in the "Blockchain"; generation of new blocks in the "Blockchain" through the "Proof-of-stake" technology; obtaining information about completed transactions from the user's account; sending and receiving encrypted messages using the "Blockchain" technology. Programming language: Java, Javascript.

The public website of the developer of the program "PRIZM" indicates that the paramining algorithm laid down by the developers of the cryptocurrency "PRIZM", according to which new PRIZM coins are created from storing coins at an address, while the more cryptocurrency is stored at one address, the faster new Prizm coins are generated.

The site also provides a definition of Paratax — a linear increase in the complexity of generating coins, expressed as a percentage of the number of coins already mined by all users. The maximum Paratax limit will be 99% by the time of production of 3 billion PZM.

SPACEBOT draws Users' attention to the fact that these processes (paramining, Paratax) are not managed or controlled by SPACEBOT

In the process of using the program "PRIZM", "Minter", etc., conditional units are created (blocks in the blockchain chain) – the cryptocurrency "PRIZM", i.e. the coins "PRIZM", the cryptocurrency Minter, i.e. the coins "BIP", etc.

Coin (cryptocurrency) - a virtual electronic conventional unit (cryptocurrency) is not a monetary unit, does not have a cash expression, and does not grant the right to receive it in monetary equivalent.

The cryptocurrency exchange rate does not have a stable value, it is constantly changing and is not controlled by SPACEBOT.

The computer program "PRIZM", "Minter", etc., the process of generating and circulating new coins (cryptocurrencies) available when using the SPACEBOT program is not controlled by SPACEBOT

Pricing on cryptocurrency platforms is free and is determined by the market participants themselves.

Taking into account the risks of changes in the cryptocurrency exchange rate, the User bears the risk of losing funds spent on the purchase of this cryptocurrency.

Various promotions can be set by the program developers.

Promotion – a marketing incentive event, as a result of which the User is entitled to receive incentives, including in the form of coins. The terms of each Promotion are individual and are published in the mobile app.

1. General provisions on coins (cryptocurrencies) available when using the SPACEBOT program

1.1. Coins can be provided to the User as rewards within the framework of Promotions, within the framework of the SPACEBOT referral program, and in other cases at The company's discretion

1.2. Each User in the app has an account (account) that contains coins, information about the status of which is available in the User's Personal account.

2. Transfer (conversion) of coins

- 2.1. Users can convert coins to other cryptocurrencies using third-party services that are not managed by the Company.
- 2.2. The transfer (conversion) of coins is only available in your personal account.
- 2.3. The transfer (conversion) of prisms coins is possible only if the User has an electronic wallet that is suitable for accounting for the corresponding electronic conventional units (cryptocurrencies).

3. Receiving newsletters

- 3.1. All notices, messages and other information provided for in these Terms and conditions shall be sent in the manner and in the manner provided for in the Terms and conditions.

4. Other conditions

- 4.1. The company may at any time unilaterally make changes to these Rules without prior notice to Users. The user has the right to review the current version of the Rules on this page.
- 4.2. Performing actions aimed at obtaining coins, participating in Promotions, is a confirmation of proper familiarization and consent of the User with these Rules.
- 4.3. 15% (fifteen) percent is deducted from the User's daily remuneration ("pair"), distributed according to The user's referral structure. The specified interest rate may be changed by the Company unilaterally.
